Dear Mike

10 Aug

Just finished reading an old
letter from Lloyd Bellinger -
MAR 1973 - came up with idea
of collecting addresses of weather
guesser's in 1966. These were ^{retired}
primarily WWII + Viet Nam vets which
had a lot in common. I would
say the "aerograph" is the most
interesting reading we all hungered
for! of this group age is the
big reason they can no longer
attend reunions, of course health
enters into that. So if this
organization wishes to continue,
the younger members
will have to take over.
I used to enjoy chapter
meetings too.
