

April 2010

NWSA/AMS Proposal

The Scholarship Committee is proposing the following recommendations be adopted by the Association and implemented before 01 January 2012. The Committee believes that if adopted the Association will benefit from greater national visibility, applicants of the highest quality and better fiscal stability. Although administered by another organization, the scholarship will continue to be awarded as the “Naval Weather Service Association Scholarship”.

Proposal:

It is proposed that the administration and operation Naval Weather Service Association (NWSA) scholarship program and all scholarship funds be transferred to The American Meteorological Society (AMS) by 01 Jan 2012 pursuant to a contractual agreement between the AMS and the NWSA.

Respectfully

Mike Gilroy

Ed Frandle
